Choose the language in which your E*Card is published

Your free subscription places your company at the heart of European exchange. Every month, EUROPAGES receives 3.1 million visitors from around the world, 70% of which from Europe. A free subscription gives you access to these users.

Your single-language E*Card entitles you to a listing in one version only of the EUROPAGES site. The language in which you enter your E*Card determines the language version of EUROPAGES in which it will be published. For example, if you create your E*Card in English, it will be published in the English version of the EUROPAGES site. Users of this version of EUROPAGES will be able to see your listing, find out about your company and contact you. The keywords you choose and the text of up to 1000 characters are not translated. Only paid subscriptions benefit from the translation into 15 languages.

All the content on your E*Card reacts to searches made in EUROPAGES. This content is optimised so that your E*Card is indexed by the leading search engines – Google, Yahoo or MSN.

Obtain positive results at no expense

You can easily see for yourself the results of your free subscription as EUROPAGES sends you a regular statistical report by e-mail.

Improve these results whenever you like

If you wish to improve your results and increase both the number of visits to your website and the number of e-mails in your mailbox, you can take out a paid subscription whenever you like. Paid E*Cards benefit from superior content and are translated, making them much more effective than a free subscription.

In 2010, a free E*Card was viewed on EUROPAGES an average 37 times compared with 726 times for a paid subscription. A paid E*Card is 20 times more likely to figure in the results of a search than a free E*Card.
